RAWNAZ ANAM

SENIOR SOFTWARE ENGINEER | .NET · Angular · Enterprise Integrations

Lebanon, PA | rawnaz.anam@gmail.com
anamraz.github.io | linkedin.com/in/rawnazanam | github.com/AnamRaz

PROFESSIONAL SUMMARY

Software engineer with 5+ years of experience building and supporting enterprise applications using C#, .NET, Angular, SQL Server, and Oracle. Owns application delivery and production troubleshooting, develops ERP and workflow integrations, and provides architecture guidance and code reviews.

PROFESSIONAL EXPERIENCE

Senior Software Developer
May 2022 - Present

Harrington Hoists, Inc. - a Columbus McKinnon company | Manheim, PA

- Own development and production support for an enterprise platform serving approximately 300 employees.
- Build full-stack capabilities using .NET, Angular, REST APIs, EF Core, Oracle, and SQL Server.
- Develop and maintain 30+ ERP and workflow automations that replace manual and paper-based processes.
- Developing an Angular web/PWA successor to a legacy Electron application, integrating .NET APIs and a Windows helper for local printing and file workflows.
- Guide two developers through architecture discussions, code reviews, testing support, and production troubleshooting.

Application Developer
Feb 2021 - May 2022

Dutch Valley Food Inc. | Myerstown, PA

- Developed .NET applications, database-driven tools, reports, and integrations supporting daily business operations.
- Automated manual processes and improved the reliability of systems used by operational teams.

Freelance Web Application Developer
2017 - 2021

Independent Projects | Remote / Pennsylvania

- Built websites and web applications for small businesses, covering requirements, interface updates, data-driven features, deployment, and client support.

Earlier experience: Help Desk / Customer Service Representative, Vertical Screen | May 2017 - Feb 2021

SELECTED PRODUCT DEVELOPMENT

ATARVI | Founder & Software Engineer
2025 - Present

Independent restaurant operations product | Active development / pilot preparation

- Building a multi-tenant restaurant operations platform using .NET 10, Blazor, EF Core, SQL Server, and Azure.
- Designing inventory, recipe, OCR-assisted receipt review, scheduling, and multi-location reporting workflows with role-based access.
- Own architecture, implementation, operator feedback, Azure deployment preparation, and pilot readiness.

TECHNICAL SKILLS

Application development: C#, .NET, ASP.NET Core, Angular, TypeScript, JavaScript, Blazor, EF Core
Data & integrations: SQL Server, Oracle, REST APIs, OpenAPI/Swagger, JDE EnterpriseOne, JDE Orchestrator
Cloud & delivery: Azure App Service, Azure SQL, Blob Storage, Key Vault, Application Insights, GitHub Actions
Engineering: Authentication/authorization, multi-tenant design, background processing, code review

EDUCATION

B.S. Information Science and Technology
Dec 2020

Temple University | Philadelphia, PA
